Pearl Hai Hum.. Isme Hai Dum!

Experience
The New World Of

Smart Move. Smarter Designs.

It’s a Pearl
For you...
This has been the philosophy of PEARL PRECISION PRODUCTS PVT. LTD. from its inception. From a humble beginning in the year 1986, the organization has taken a giant leap with three manufacturing units in Noida. A dream which was conceived in the mid-eighties is virtually going to turn into a reality.

TECHNICAL-EDGE:

PEARL PRECISION PRODUCTS PVT. LTD. is not only the name of the organization but it is also the key word for the products offered. With ideas from the technical and experienced human minds in the organization and through the process of continuous product development, it has established itself as an entity which can deliver products with immaculate precision within time bound schedule. The company has an inhouse tool room which is equipped with all modern machineries like CNC, WIRECUT, VMC etc and it is capable of developing moulding dies for delivering premium quality products.

Trust, Value, Commitment

After establishing its reputation in the white goods industry (catering to multinationals like LG, PHILIPS, VIDEOCON, HINDWARE etc) the company diversified in the sanitary world and started manufacturing various items like Cisterns, Seat Covers, Cabinets, P.T.M.T. Taps, Connection Pipes, Kitchen Sinks, Bathroom Accessories and now introducing Sanitaryware. The company has also been approved by BUREAU OF INDIAN STANDARD to use ISI mark on the products manufactured. Within a very short span of time the company has earned its reputation with the quality and varieties offered to the consumers. The company has a large network of distributors comprising more than 580+ across the country to make the products available with technical support and after sales service.

We sincerely believe that what we are today is the result of the dedication and the hard work put in by all the members of this organization. We also know that this is not the end of the road and we have to scale a new height with higher growth in the days to come. It is obvious that there will be lot of hurdles and adversities during this journey but our team is ready to withstand those with true spirit as we know that the best is bought only at the cost of great pain. We thank you for your contribution for so long and look forward for the same in future also.

CONCEALED FLUSHING CISTERN
THE STANDARD FOR FLUSH TECHNOLOGY STYLISH AND APPEALING
WATER SAVING AND ANTI BACTERIAL

Concealed flushing cisterns are a great choice for sanitary facilities equipped with floor mounted toilet bowls.

As the name suggests, instead of being on display, the cistern element of the toilet is concealed, either behind a wall or within a furniture unit, with just the toilet pan visible.

This helps contribute to a cleaner, more minimalist style bathroom that’s both easy to maintain and effortlessly stylish.
